

# Industrial Metric led bar

## Programmable position indicators

### Description

**Industrial programmable led bar** for industrial applications

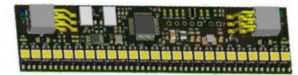

4mm / 10 mm led definition

Modular assembly up to 16 mt with modules up to 4 mt

**Monochromatic (white-red-orange-blue-yellow) or rgb models**

RS485 interface integrated ; 24 V power supply, IP65

Project achieved by internal resources and Genesi skills

**4 mm / 10 mm  
LED definition**

### Application

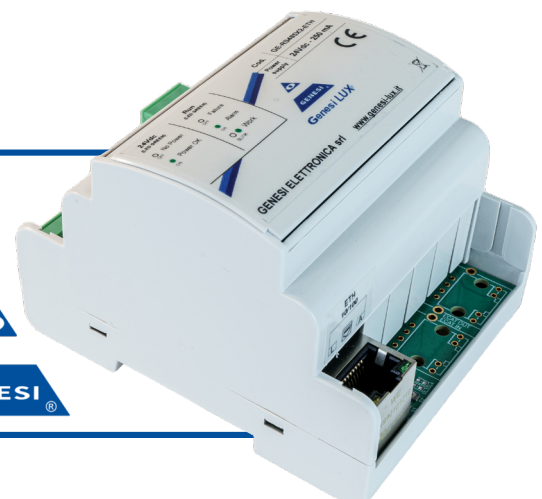

Machine loading indicator

Industry 4.0 compatible

Led light signal

Machine, cobot or industrial plant position indicators

product tracing after vision systems

### Optional Features

- Ethernet converter
- EtherCAT converter
- IO-Link converter

## Industrial Metric Led Bar

3

### KEY FEATURES

- Programmable Position Indicators
- Industry 4.0 compatible
- Human Machine Interface (HMI)

### TECHNICAL SPECIFICATIONS

- Over 500 switches of light per second
- RS485 Interface
- LED definition: 4 mm / 10 mm
- LED dimmer: 0-100%
- Length: up to 16 mt

### OPTIONAL FEATURES

- Ethernet converter
- EtherCAT converter
- IO-Link converter

### APPLICATIONS

- ① Silos/Tank level monitoring systems
- ② Location indicators of materials in a warehouse
- ③ Quality Vision Systems
- ④ Product tracing after Vision System

### Colour options:

4

## Industrial Metric Led Bar

The best light for your vision
